Voyage Summary
Voyage AMERICAN SPIRIT – 15

Charterer
Western Bulk

Broker
IFCHOR

Sedna and Veson integration

The Sedna and Veson IMOS Platform (VIP) integration enables Vessel Owners, Operators and Charterers teams to quickly get contextual information from Veson IMOS Platform for time-sensitive Sedna messages and enrich them with dry bulk voyage data from VIP to stay on top of priorities, reduce information overload, and maximise revenue opportunities and profitability.

USED BY INDUSTRY LEADERS

NORVIC SHIPPING   Western Bulk   Ardmore Shipping   MOL CHEMICAL TANKERS

BUNGE   NORDEN   VITERRA   AAL

Sedna

POWERFUL DATA AT YOUR FINGERTIPS

A seamless integration that saves you time, removes manual processes and enables you to monitor and keep up to date with your voyages all within Sedna.

- Sedna messages are automatically tagged with VIP Job Tags (e.g. Vessel and Voyage Reference) in Sedna meaning messages are tagged, organised and routed to the correct team members

- Quickly access your voyage data when you need it by directly retrieving and displaying VIP data from the Sedna Context Panel

- Using the embedded Sedna button, you can automate the pre-population of Sedna messages with vessel/voyage reference from within VIP
