# Personal data removal

Safeguard regulatory compliance by easily identifying, tagging, and removing Personal Identifiable Information (PII).

Meeting GDPR and CCPA compliance regulations can be a tedious manual process. Ensure regulatory compliance by easily identifying and removing Personal Identifiable Information (PII) from all emails.

**Tiers available**  
 Standard  
 Pro  
 Enterprise

## Benefits of SEDNA Personal data removal

- Instant, automatic compliance with GDPR / CCPA regulations
- Take control of your compliance with additional manual flagging
- Reduce IT time spent on build and maintenance of solutions
- Safeguard the personal data of your employees

# Invoice processing

Handle voyage payments in Maritime, Freight Forwarding and Trucking even faster by processing invoices automatically.

In a typical business environment, invoice management can delay overall voyage time as it requires multiple touchpoints, internal emails and switching between additional systems. SEDNA's Invoice processing automates 90% of all invoices for your teams.

# Quote automation

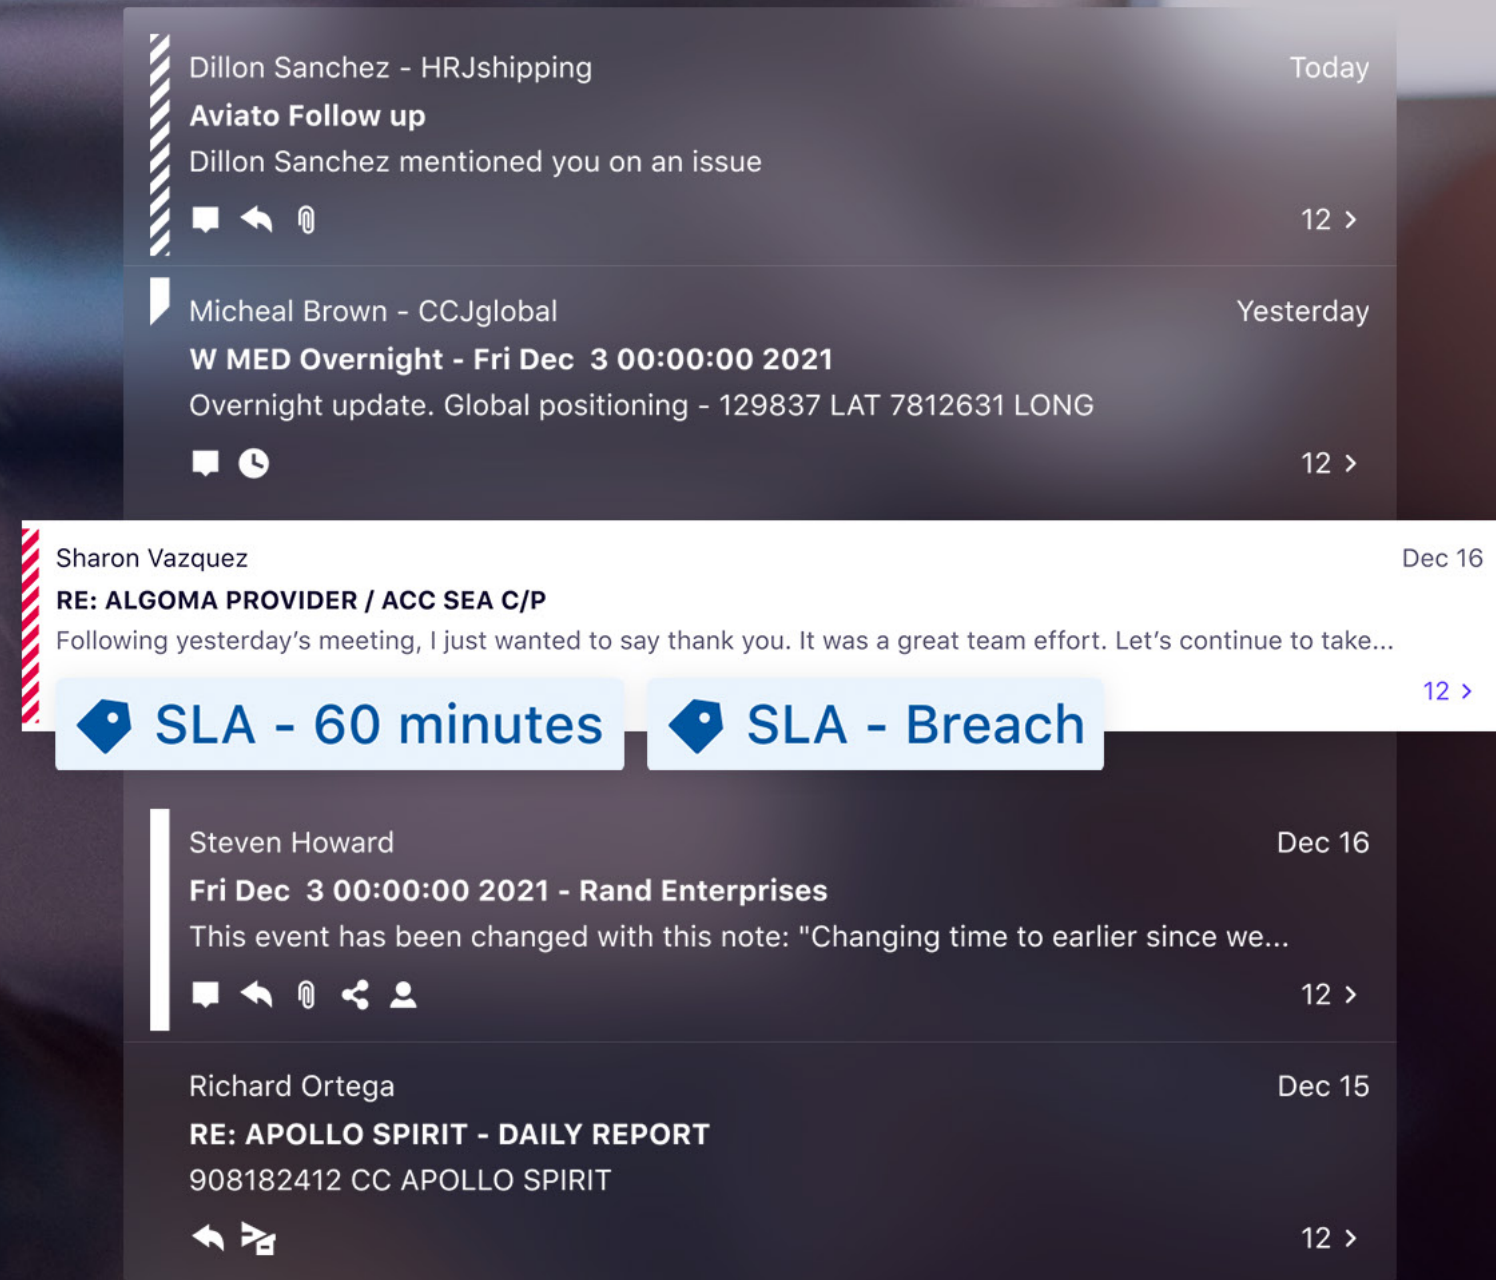

Extract key data from your vendor quotes to instantly understand who is providing you the best rates.

When quote information is buried in your teams' inboxes, it can be difficult to get an understanding of pricing. SEDNA's Quote automation gives your teams a mailbox-wide view of all quotes per shipment.

**Tiers available**  
 Standard  
 Pro  
 Enterprise

## Benefits of SEDNA Quote automation

- ⚡ Make faster decisions by comparing quotes in one view
- 🎯 Better transparency on vendors and their offers
- ▶▶ Less manual work for your teams

# SLA monitoring

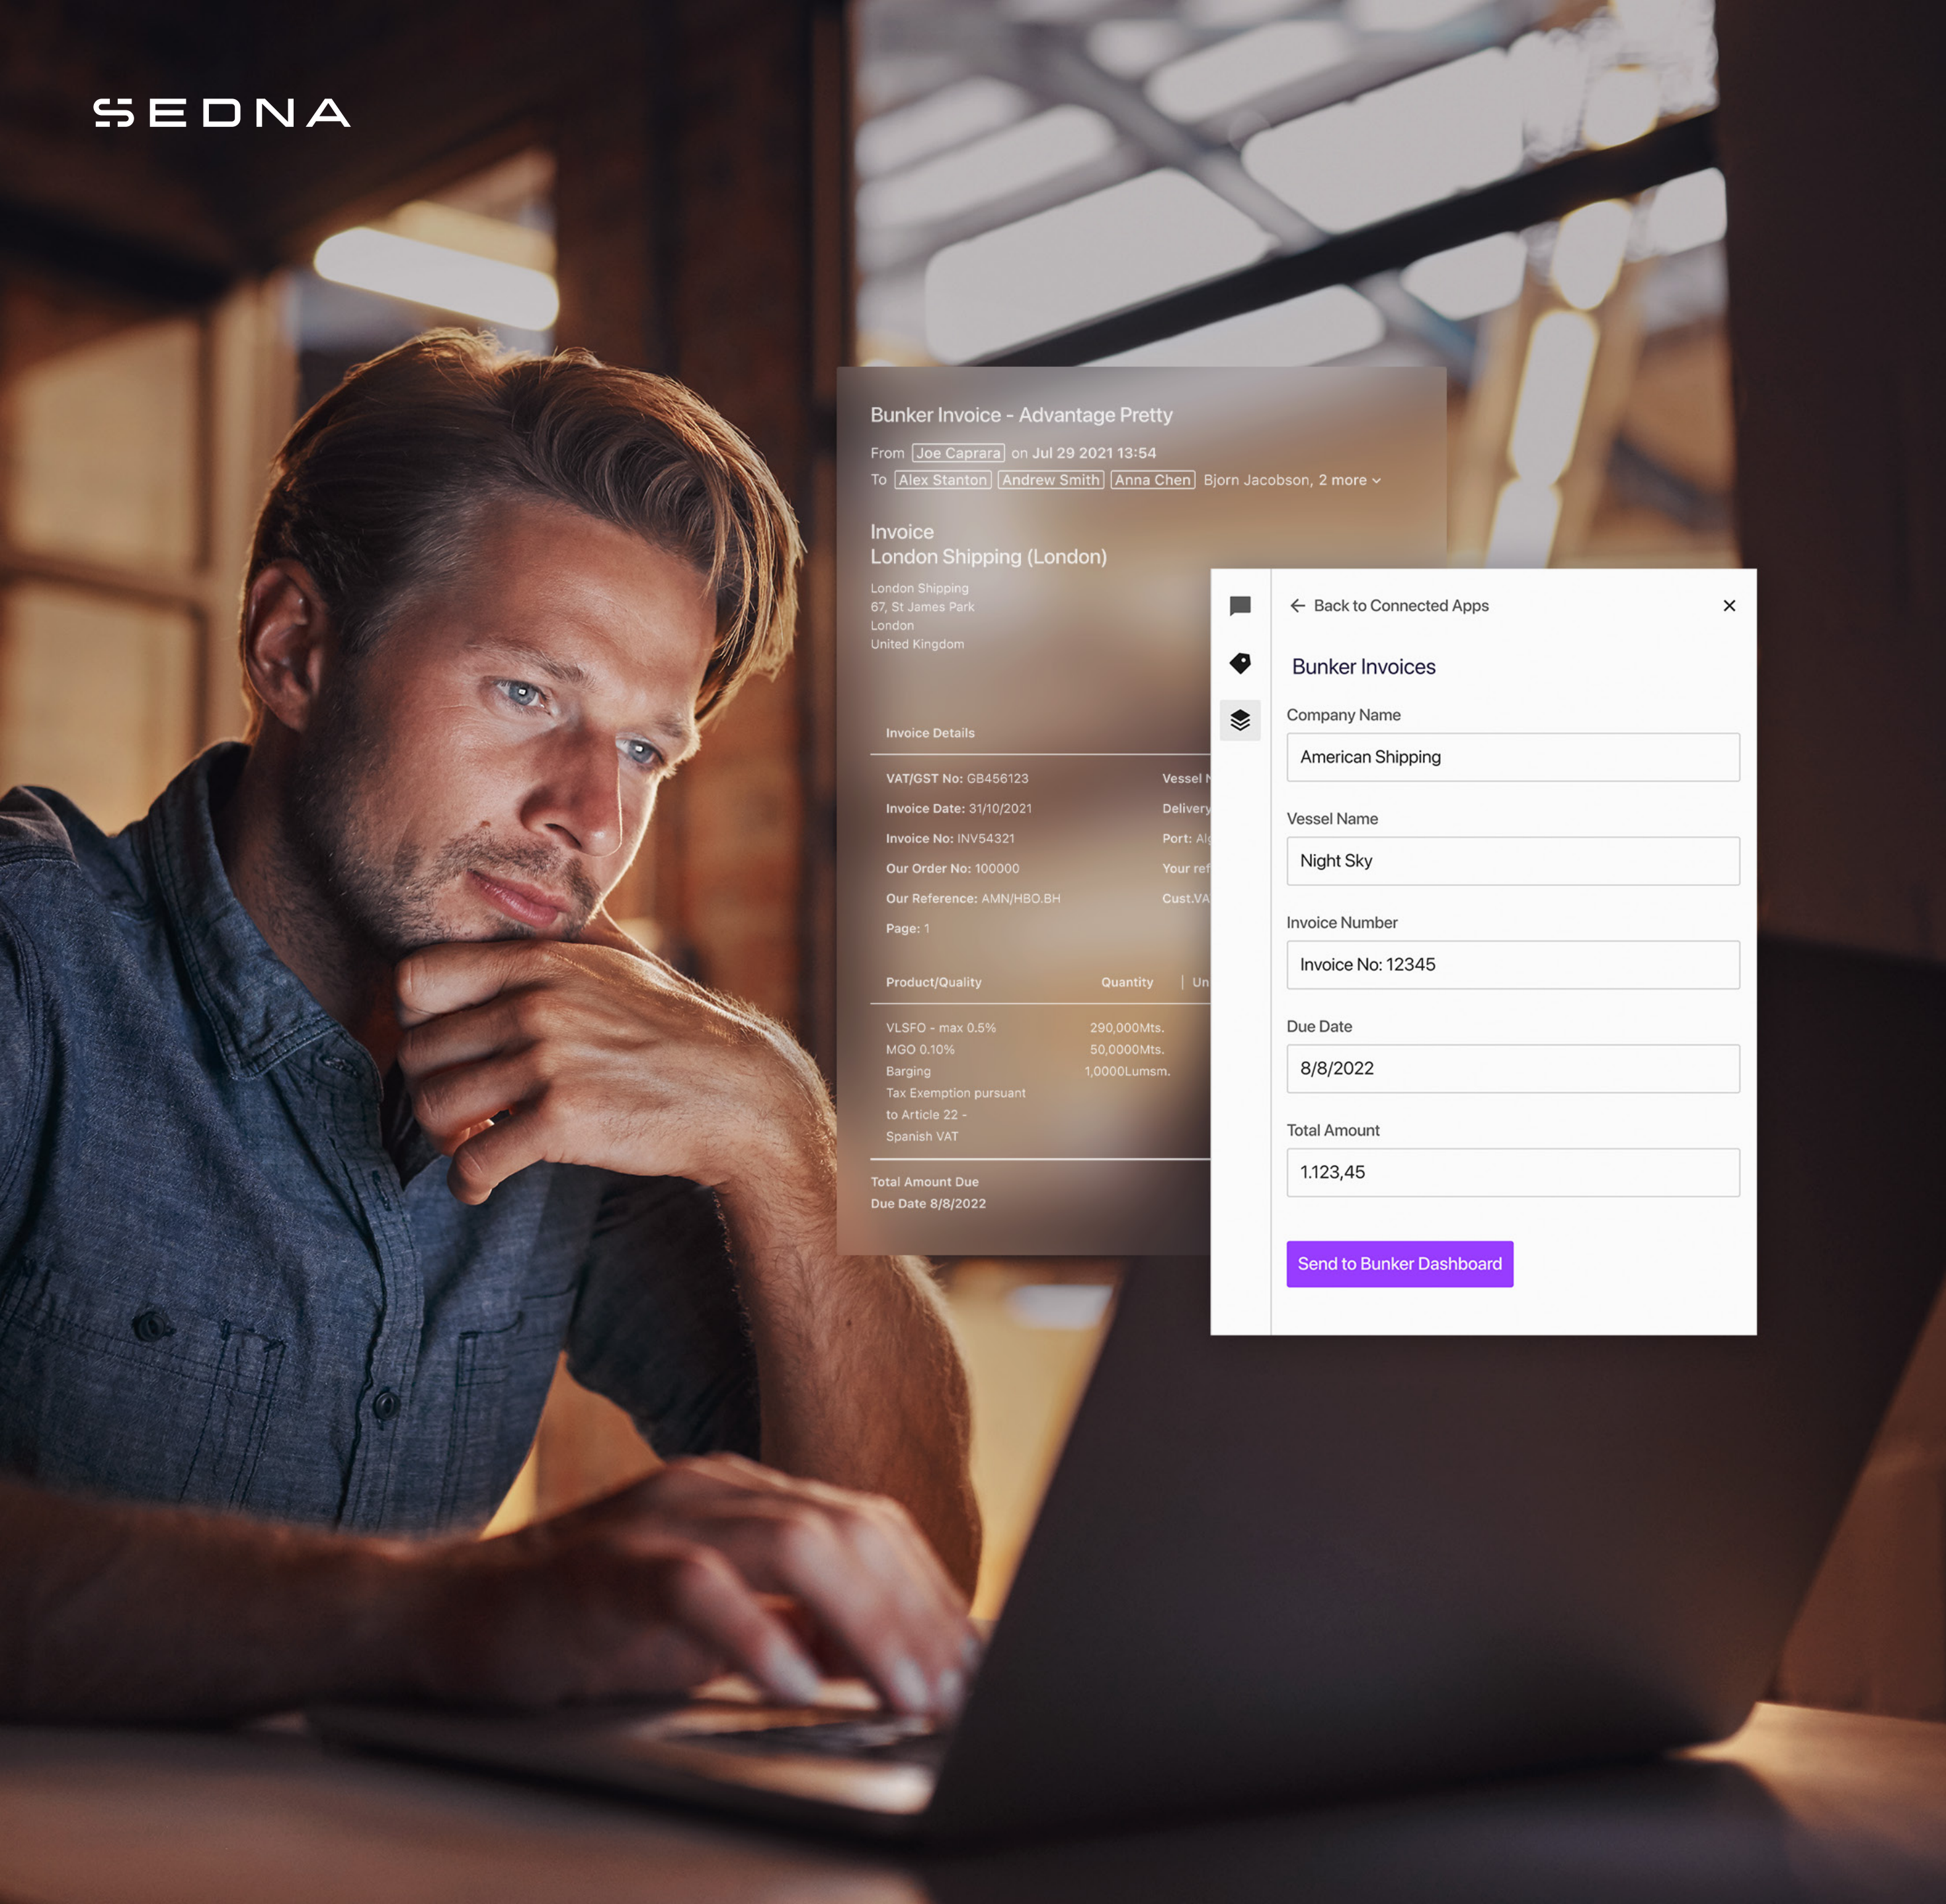

Ensure your teams respond to key emails within the SLA time frame.

With large email volumes, it can be difficult for teams to adhere to response times and important messages can get lost. SEDNA's SLA monitoring automates alerts to help your team respond faster.

**Tiers available**  
 Standard  
 Pro  
 Enterprise

## Benefits of SEDNA SLA monitoring:

- ⚡ Respond to customers faster
- 🛡️ Drive SLA compliance while minimizing delays and breaches
- ⬆️ Improve team performance and productivity
- 🕒 Get alerted when emails aren't responded to in time

# Bunker invoice processing

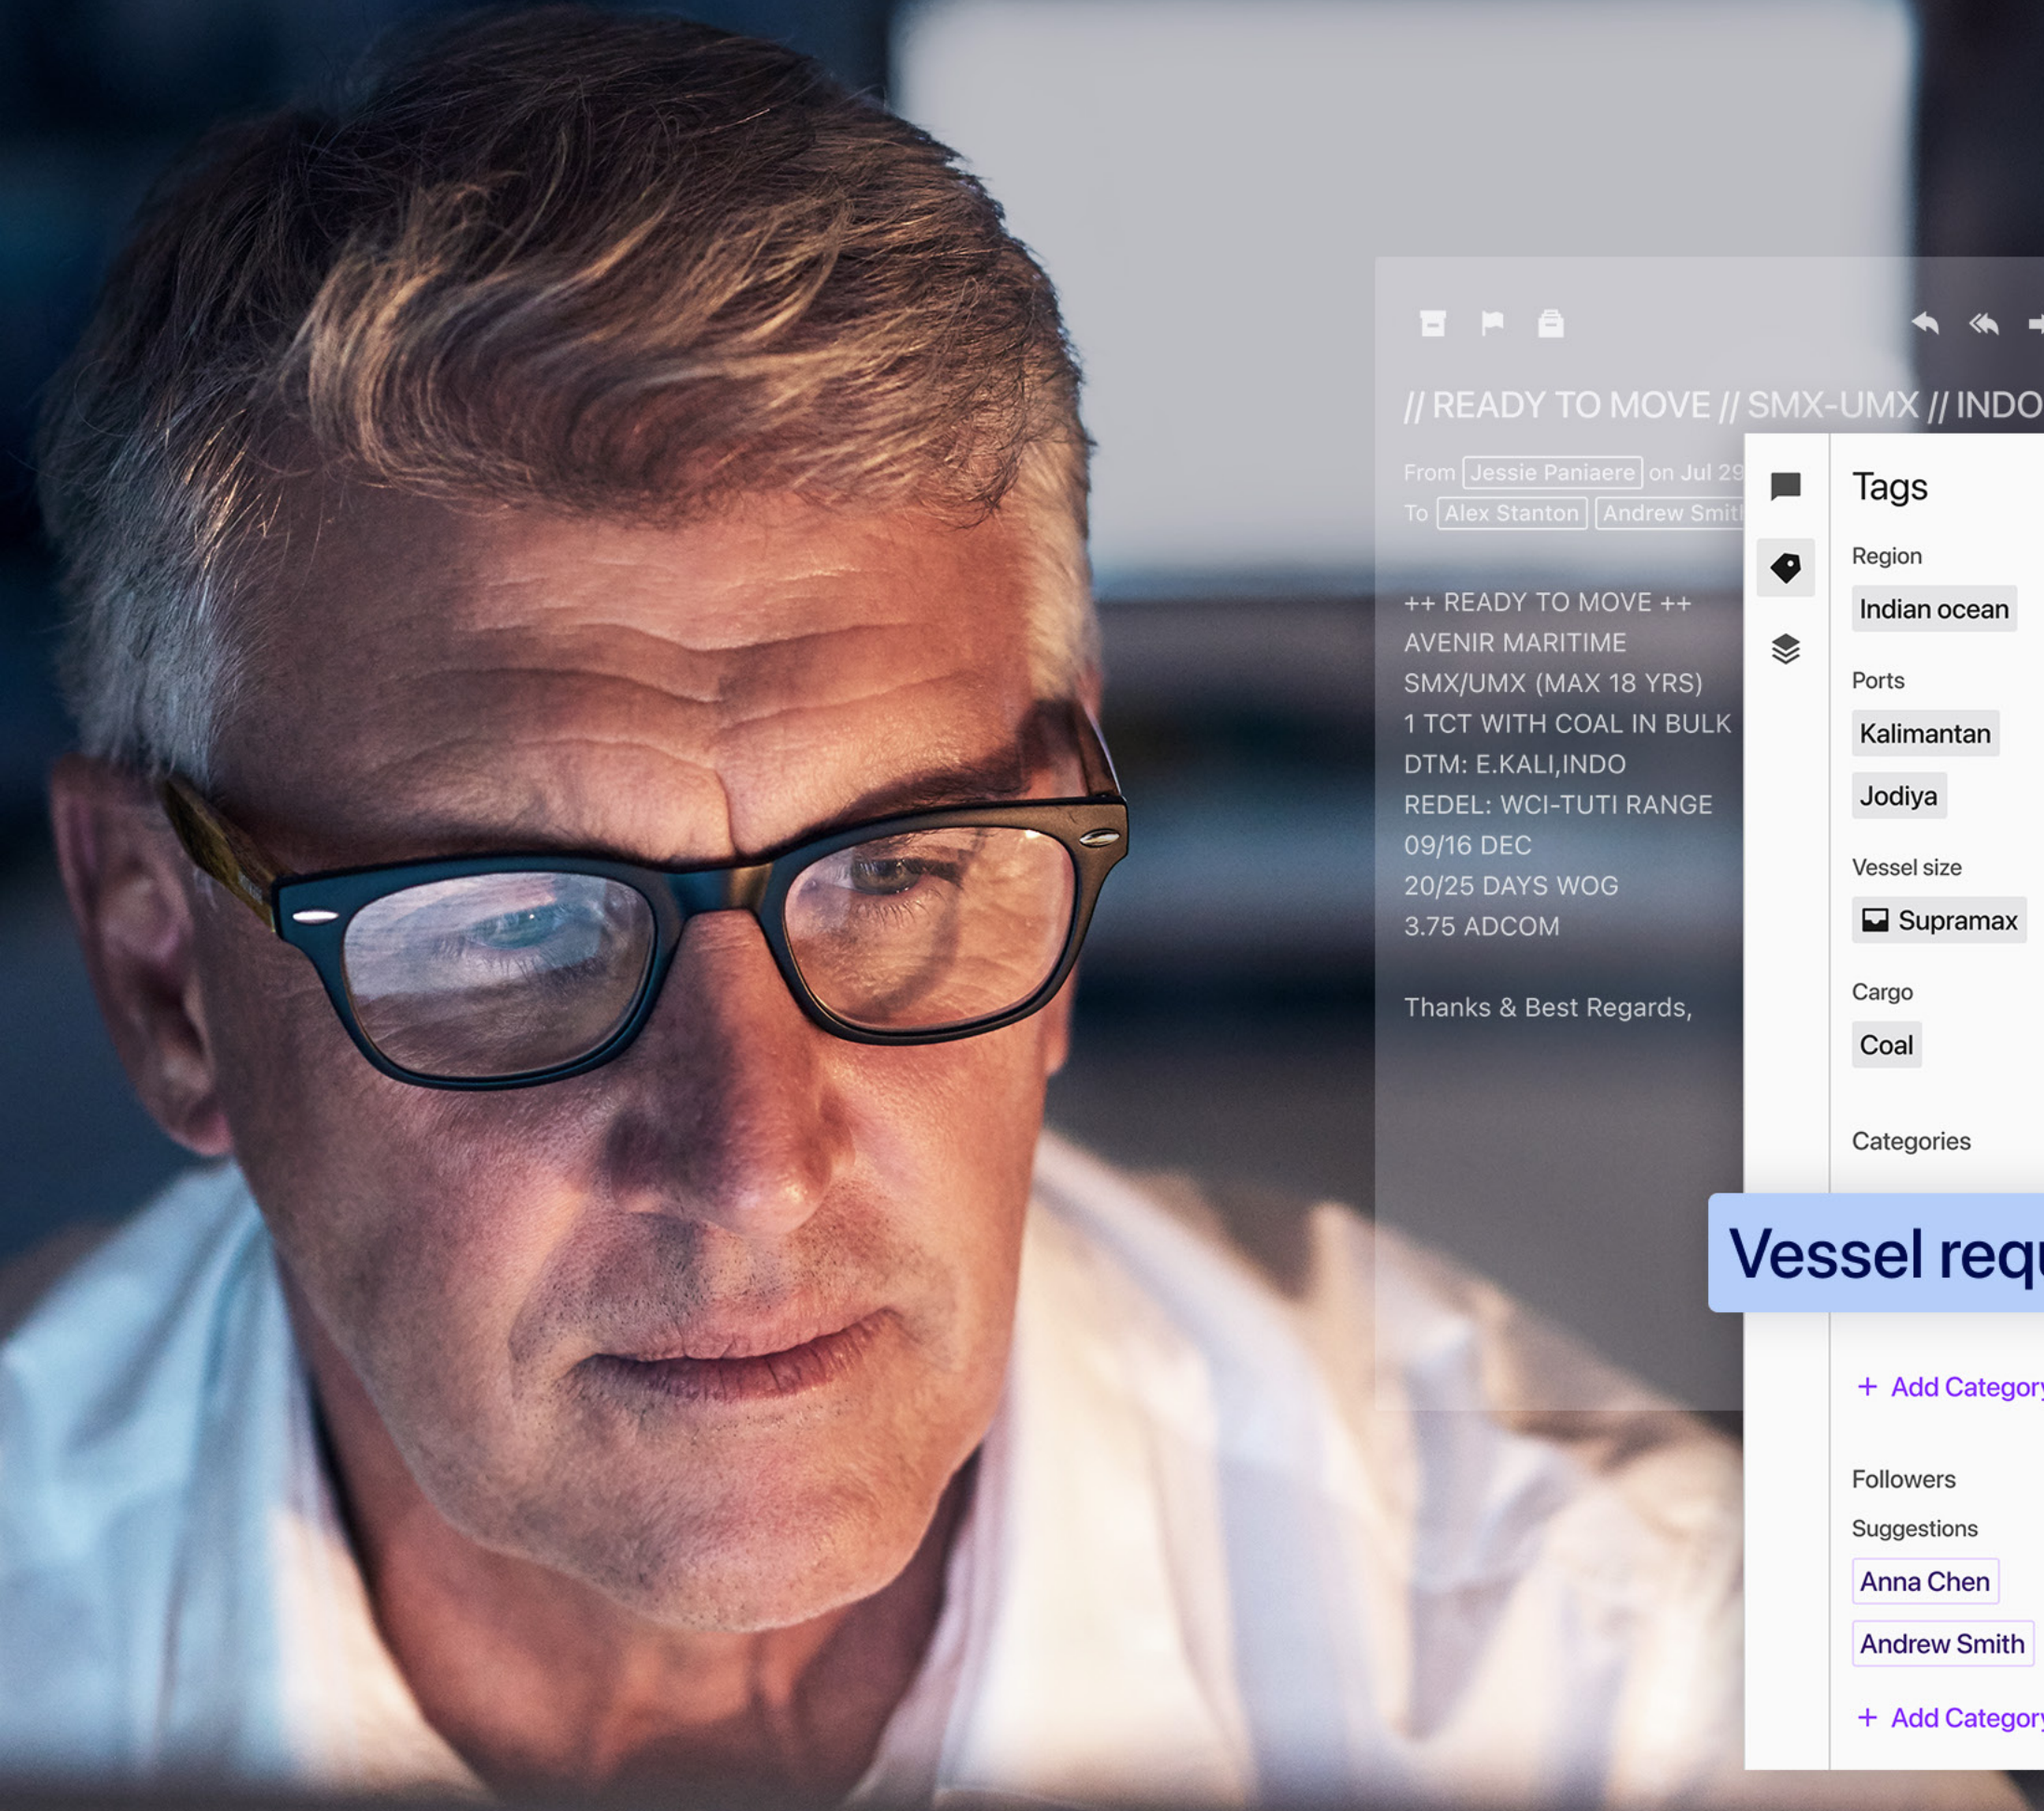

Handle voyage payments faster by processing bunker invoices automatically

In a typical business environment, bunker invoice management can delay overall voyage time as it requires multiple touchpoints, internal emails and switching between additional systems. SEDNA's Bunker invoice processing automates 90% of all invoices for your teams.

**Tiers available**  
 Standard  
 Pro  
 Enterprise

## Benefits of SEDNA Bunker invoice processing

- ⚡ Automate 90% of all invoices without any manual processes
- ▶▶ Easily process bunker invoices that require manual verification in 3 clicks
- ↑ Free up time for your finance and operations teams

Vessel request

# Vessel type autotagger

Read less emails by automatically categorizing emails in your inbox by vessel type.

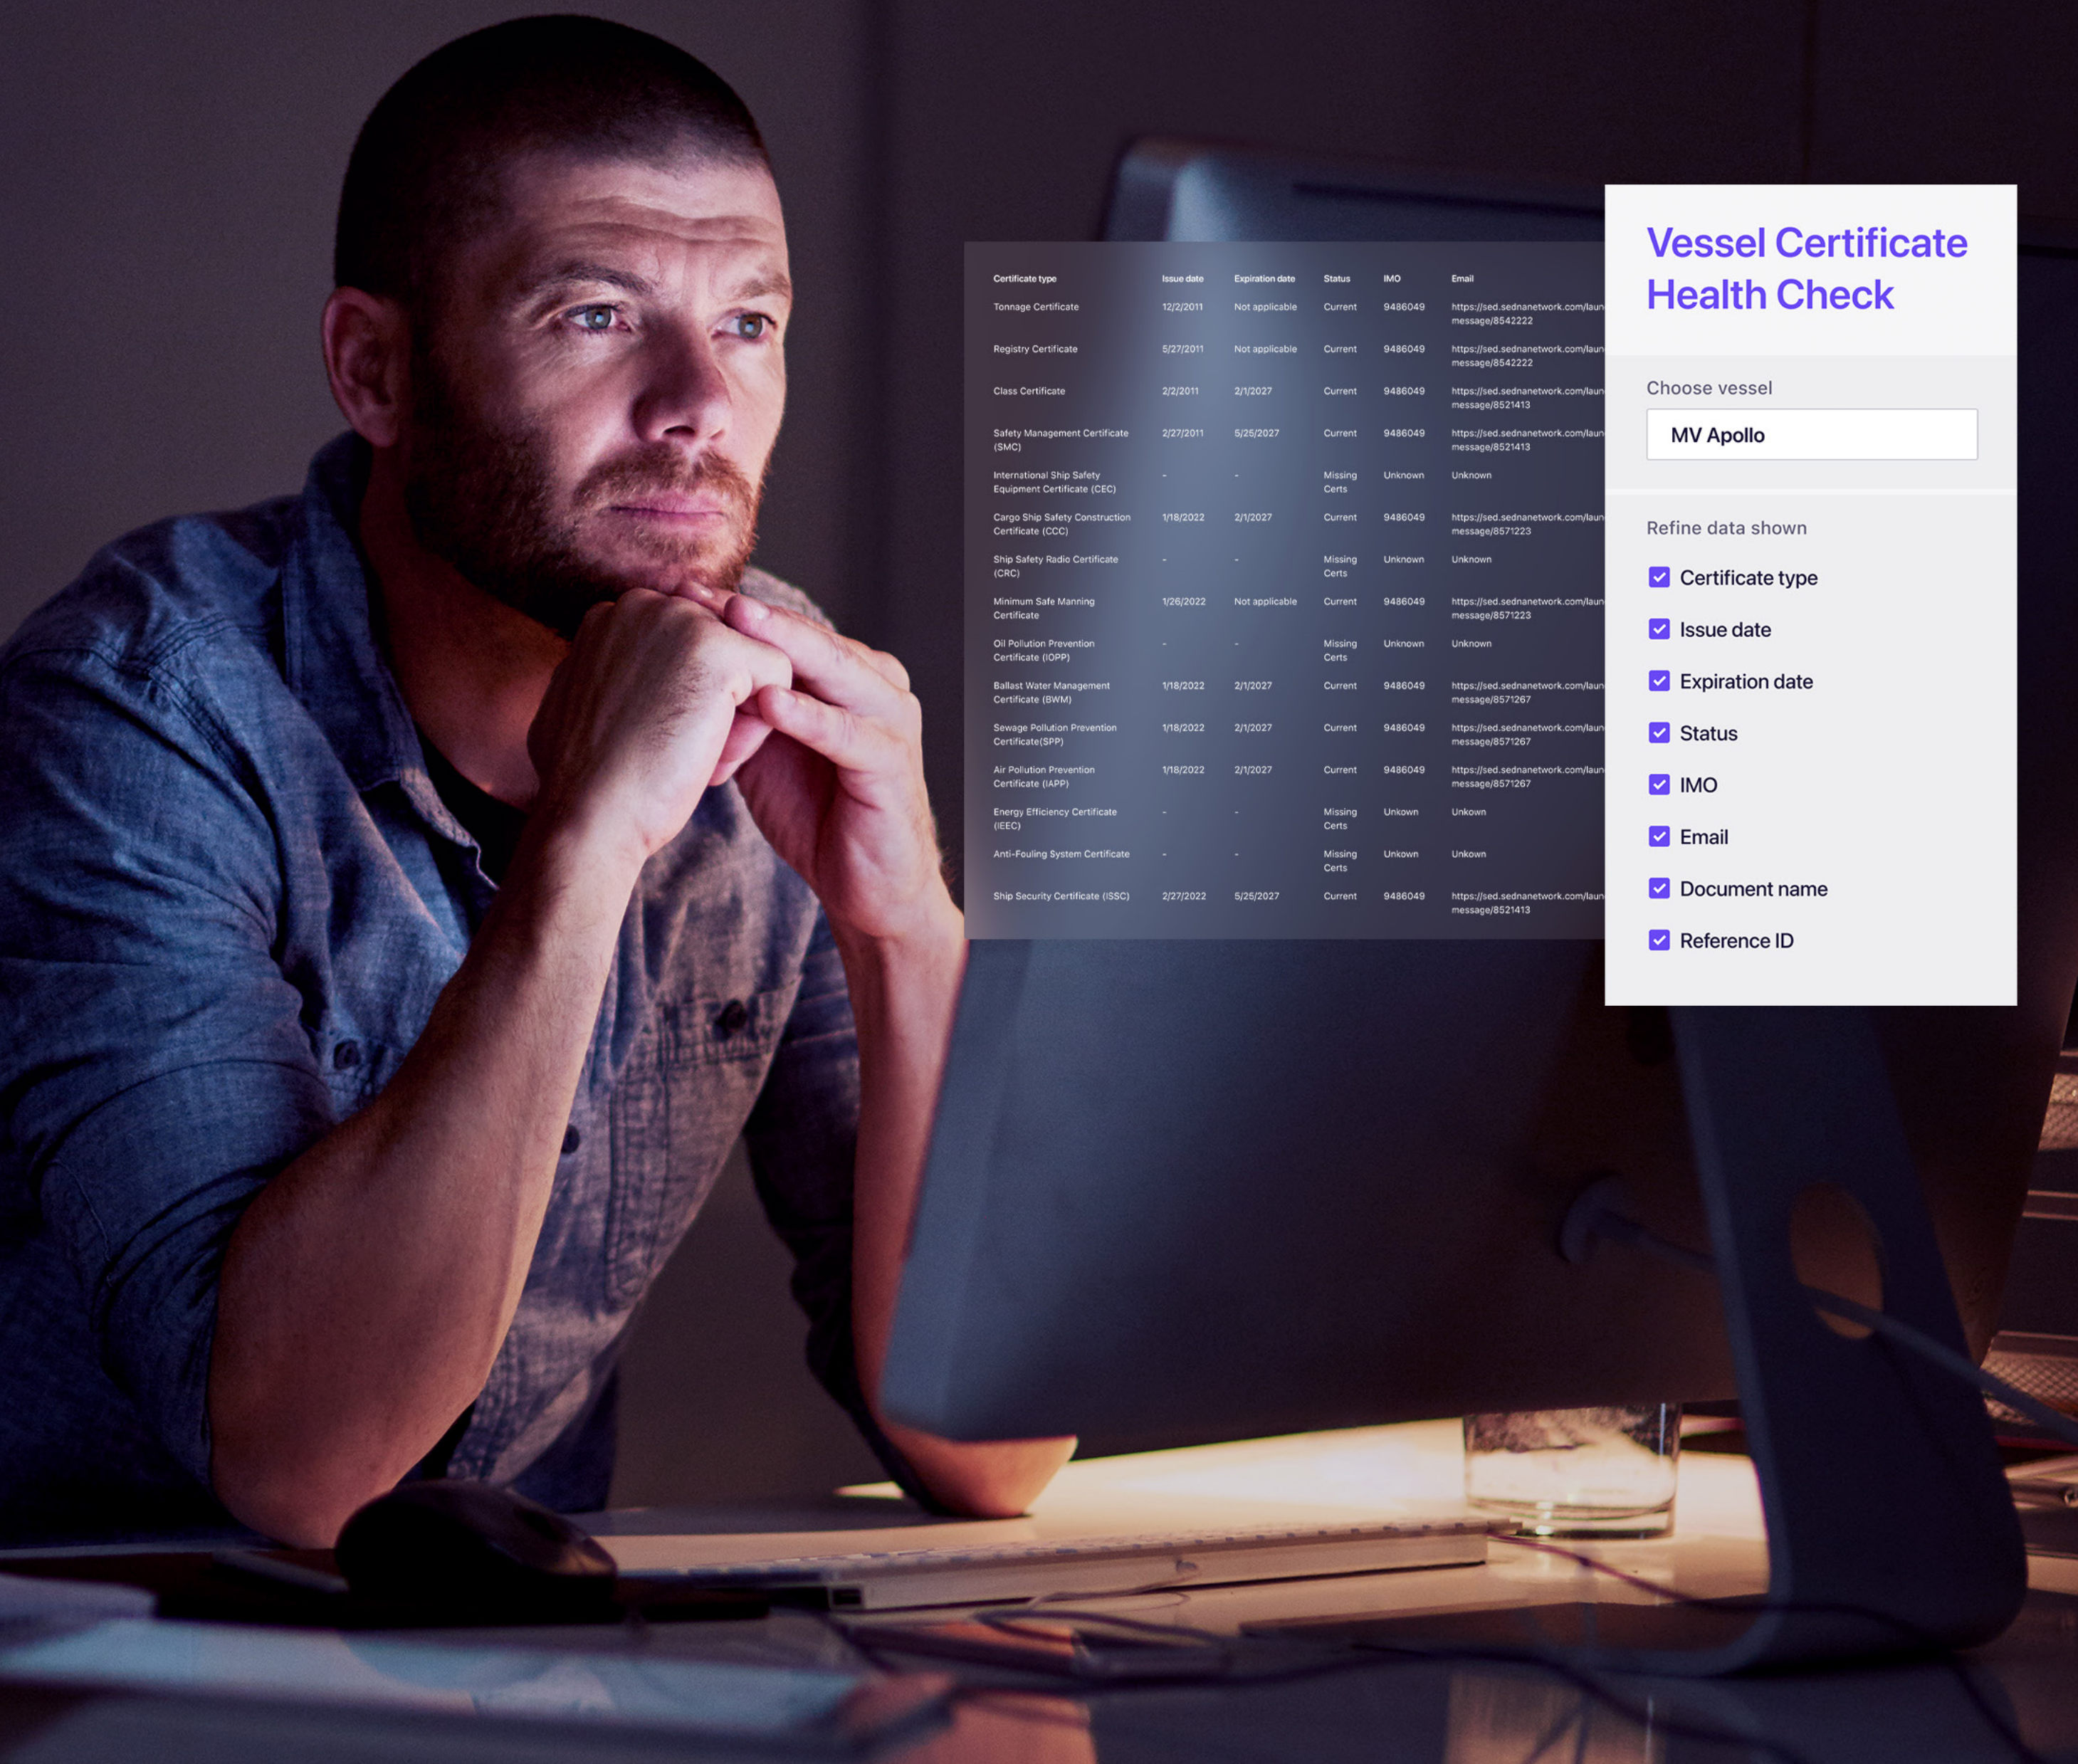

Matching cargo with vessel type is key in Chartering, however, this information is rarely visible at a glance. SEDNA's autotagger helps teams quickly identify vessel type.

**Tiers available**  
Standard  
Pro  
Enterprise

## Benefits of SEDNA Vessel type autotagger

- ⚡ Save time by reading less emails
- ✂ Cut through the noise by only seeing the vessel types important for you and your teams
- ▶▶ Make faster decisions by matching cargo with vessel type easily

# Vessel certificate processing

Easily gain access to the most recent vessel documents

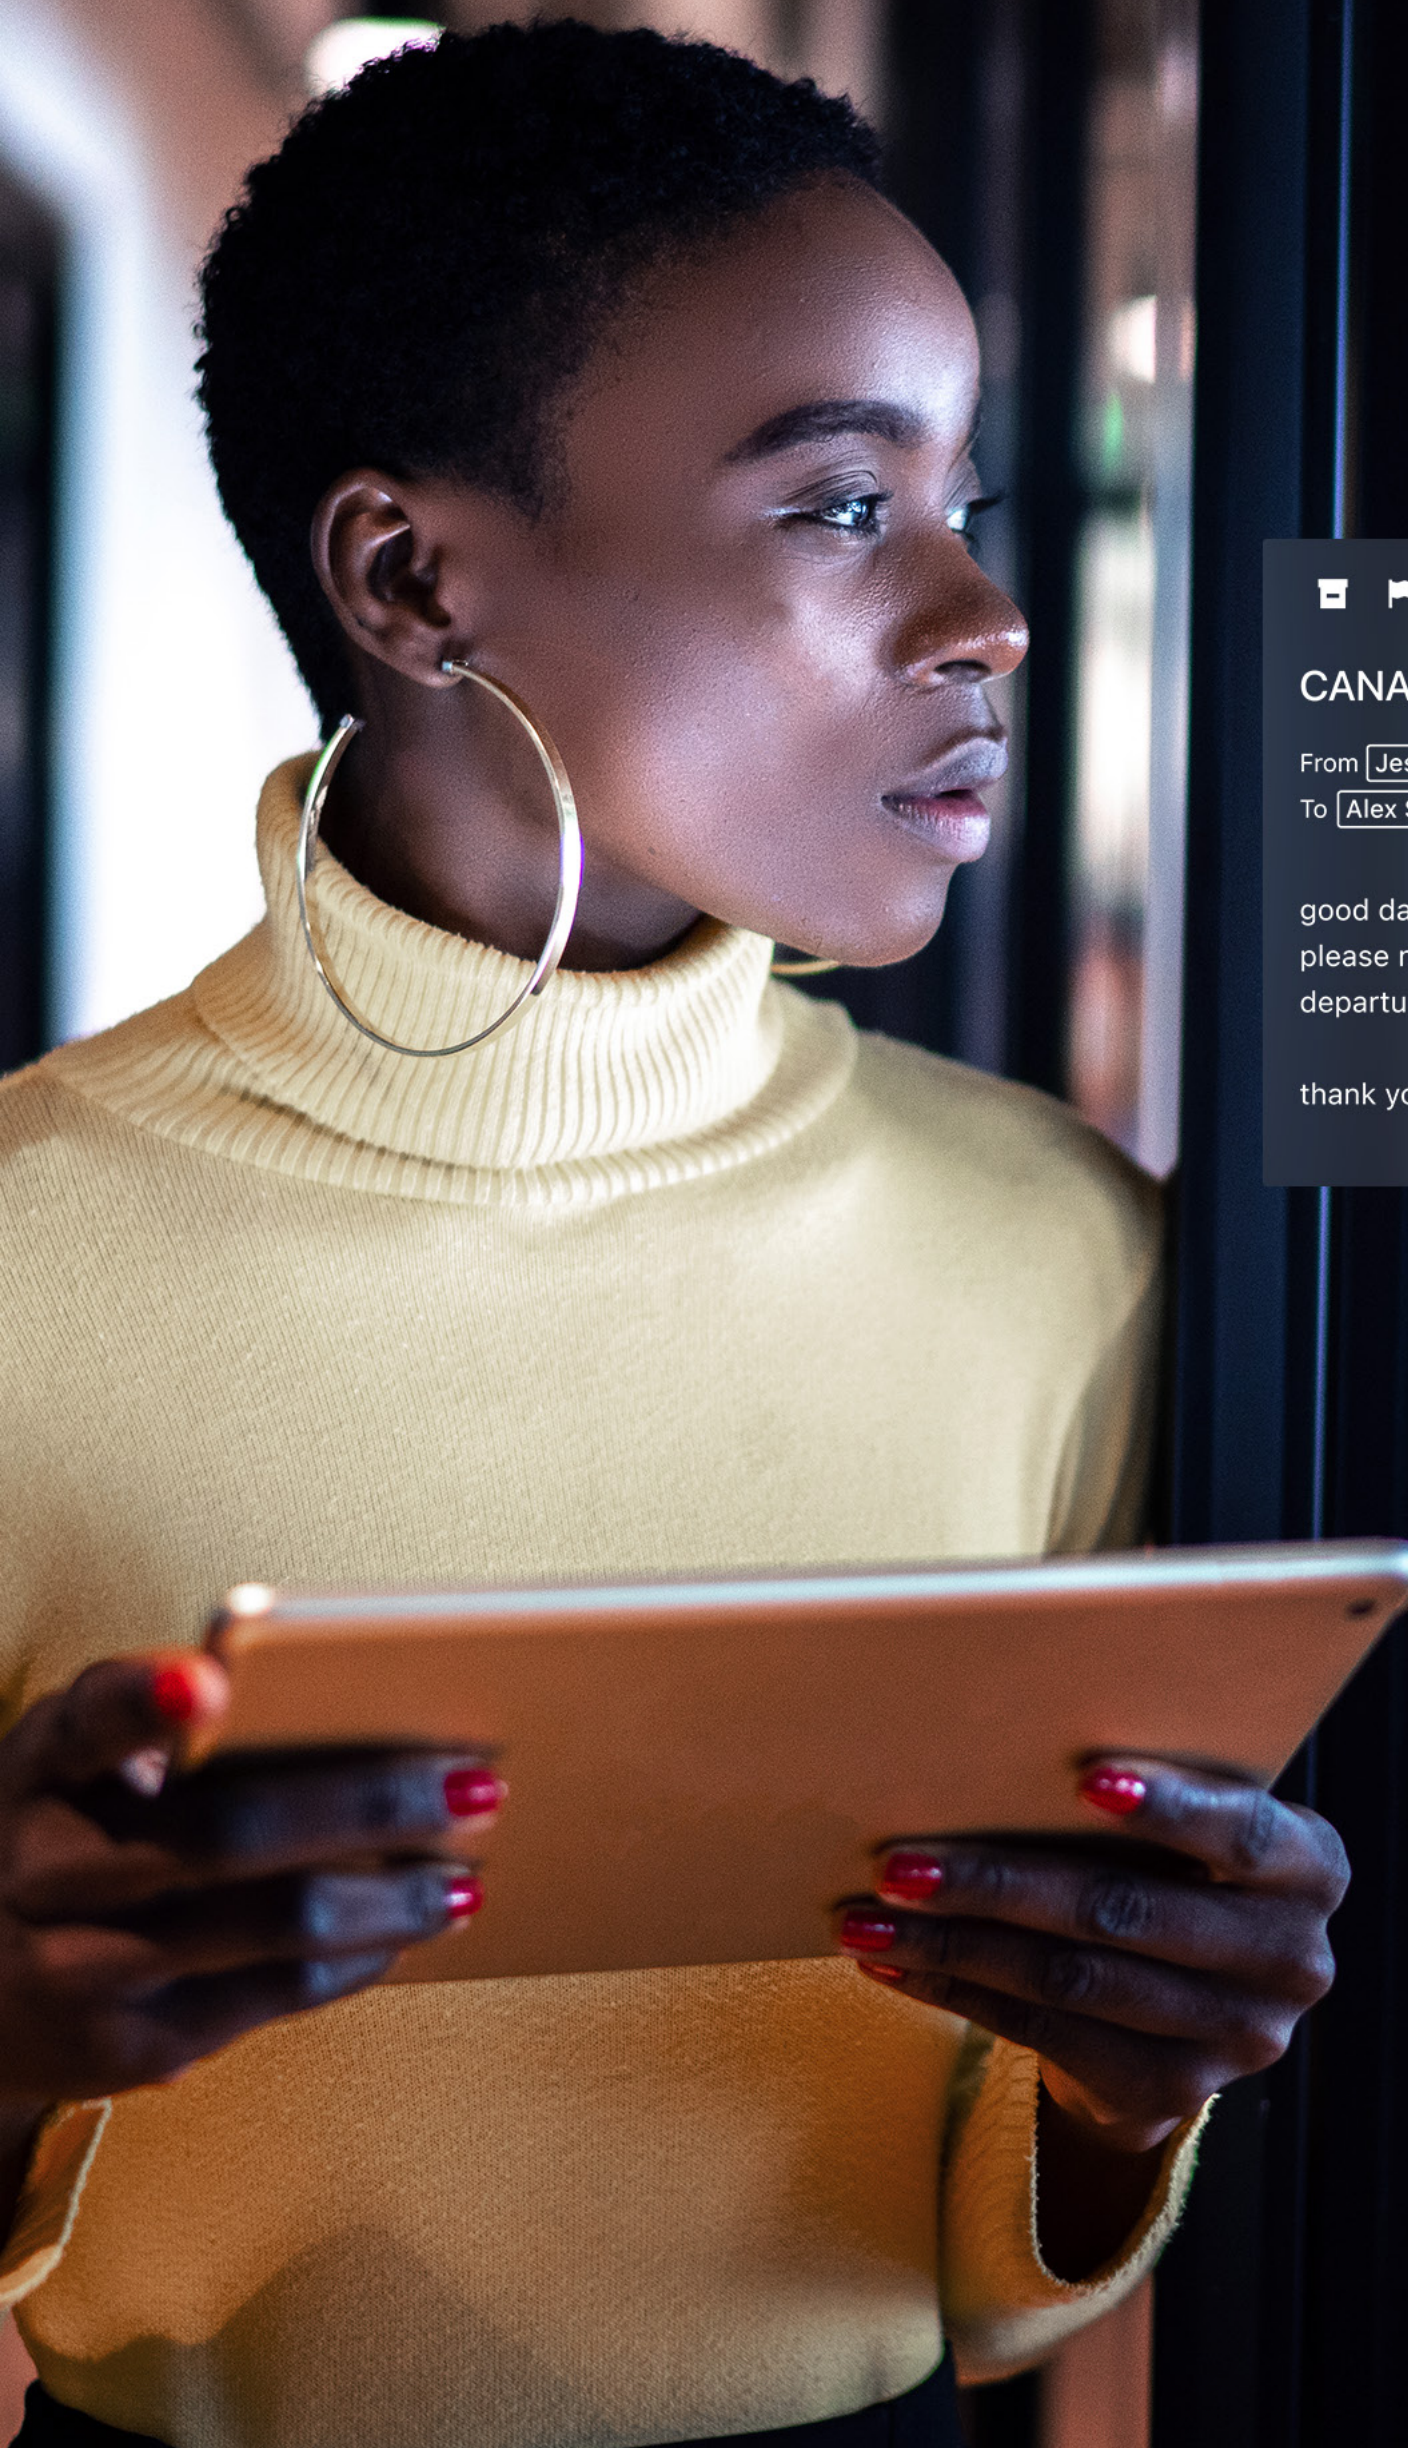

Vessel certificate management can be time consuming, requiring manual steps and at times, multiple team members. SEDNA's Vessel certificate processing automates this workflow by always highlighting the most recent document.

**Tiers available**

- Standard
- Pro
- Enterprise

## Benefits of SEDNA Vessel certificate processing

-  Save time by automatically matching vessels with their certificates
-  Ensure compliance with access to the most recent documentation
-  Send complete certificate packages to customers
-  Minimize margin for error and delays

please note our eta paradip is 03.08.2022 at  
departure from singapore.

thank you.

# ETA updates

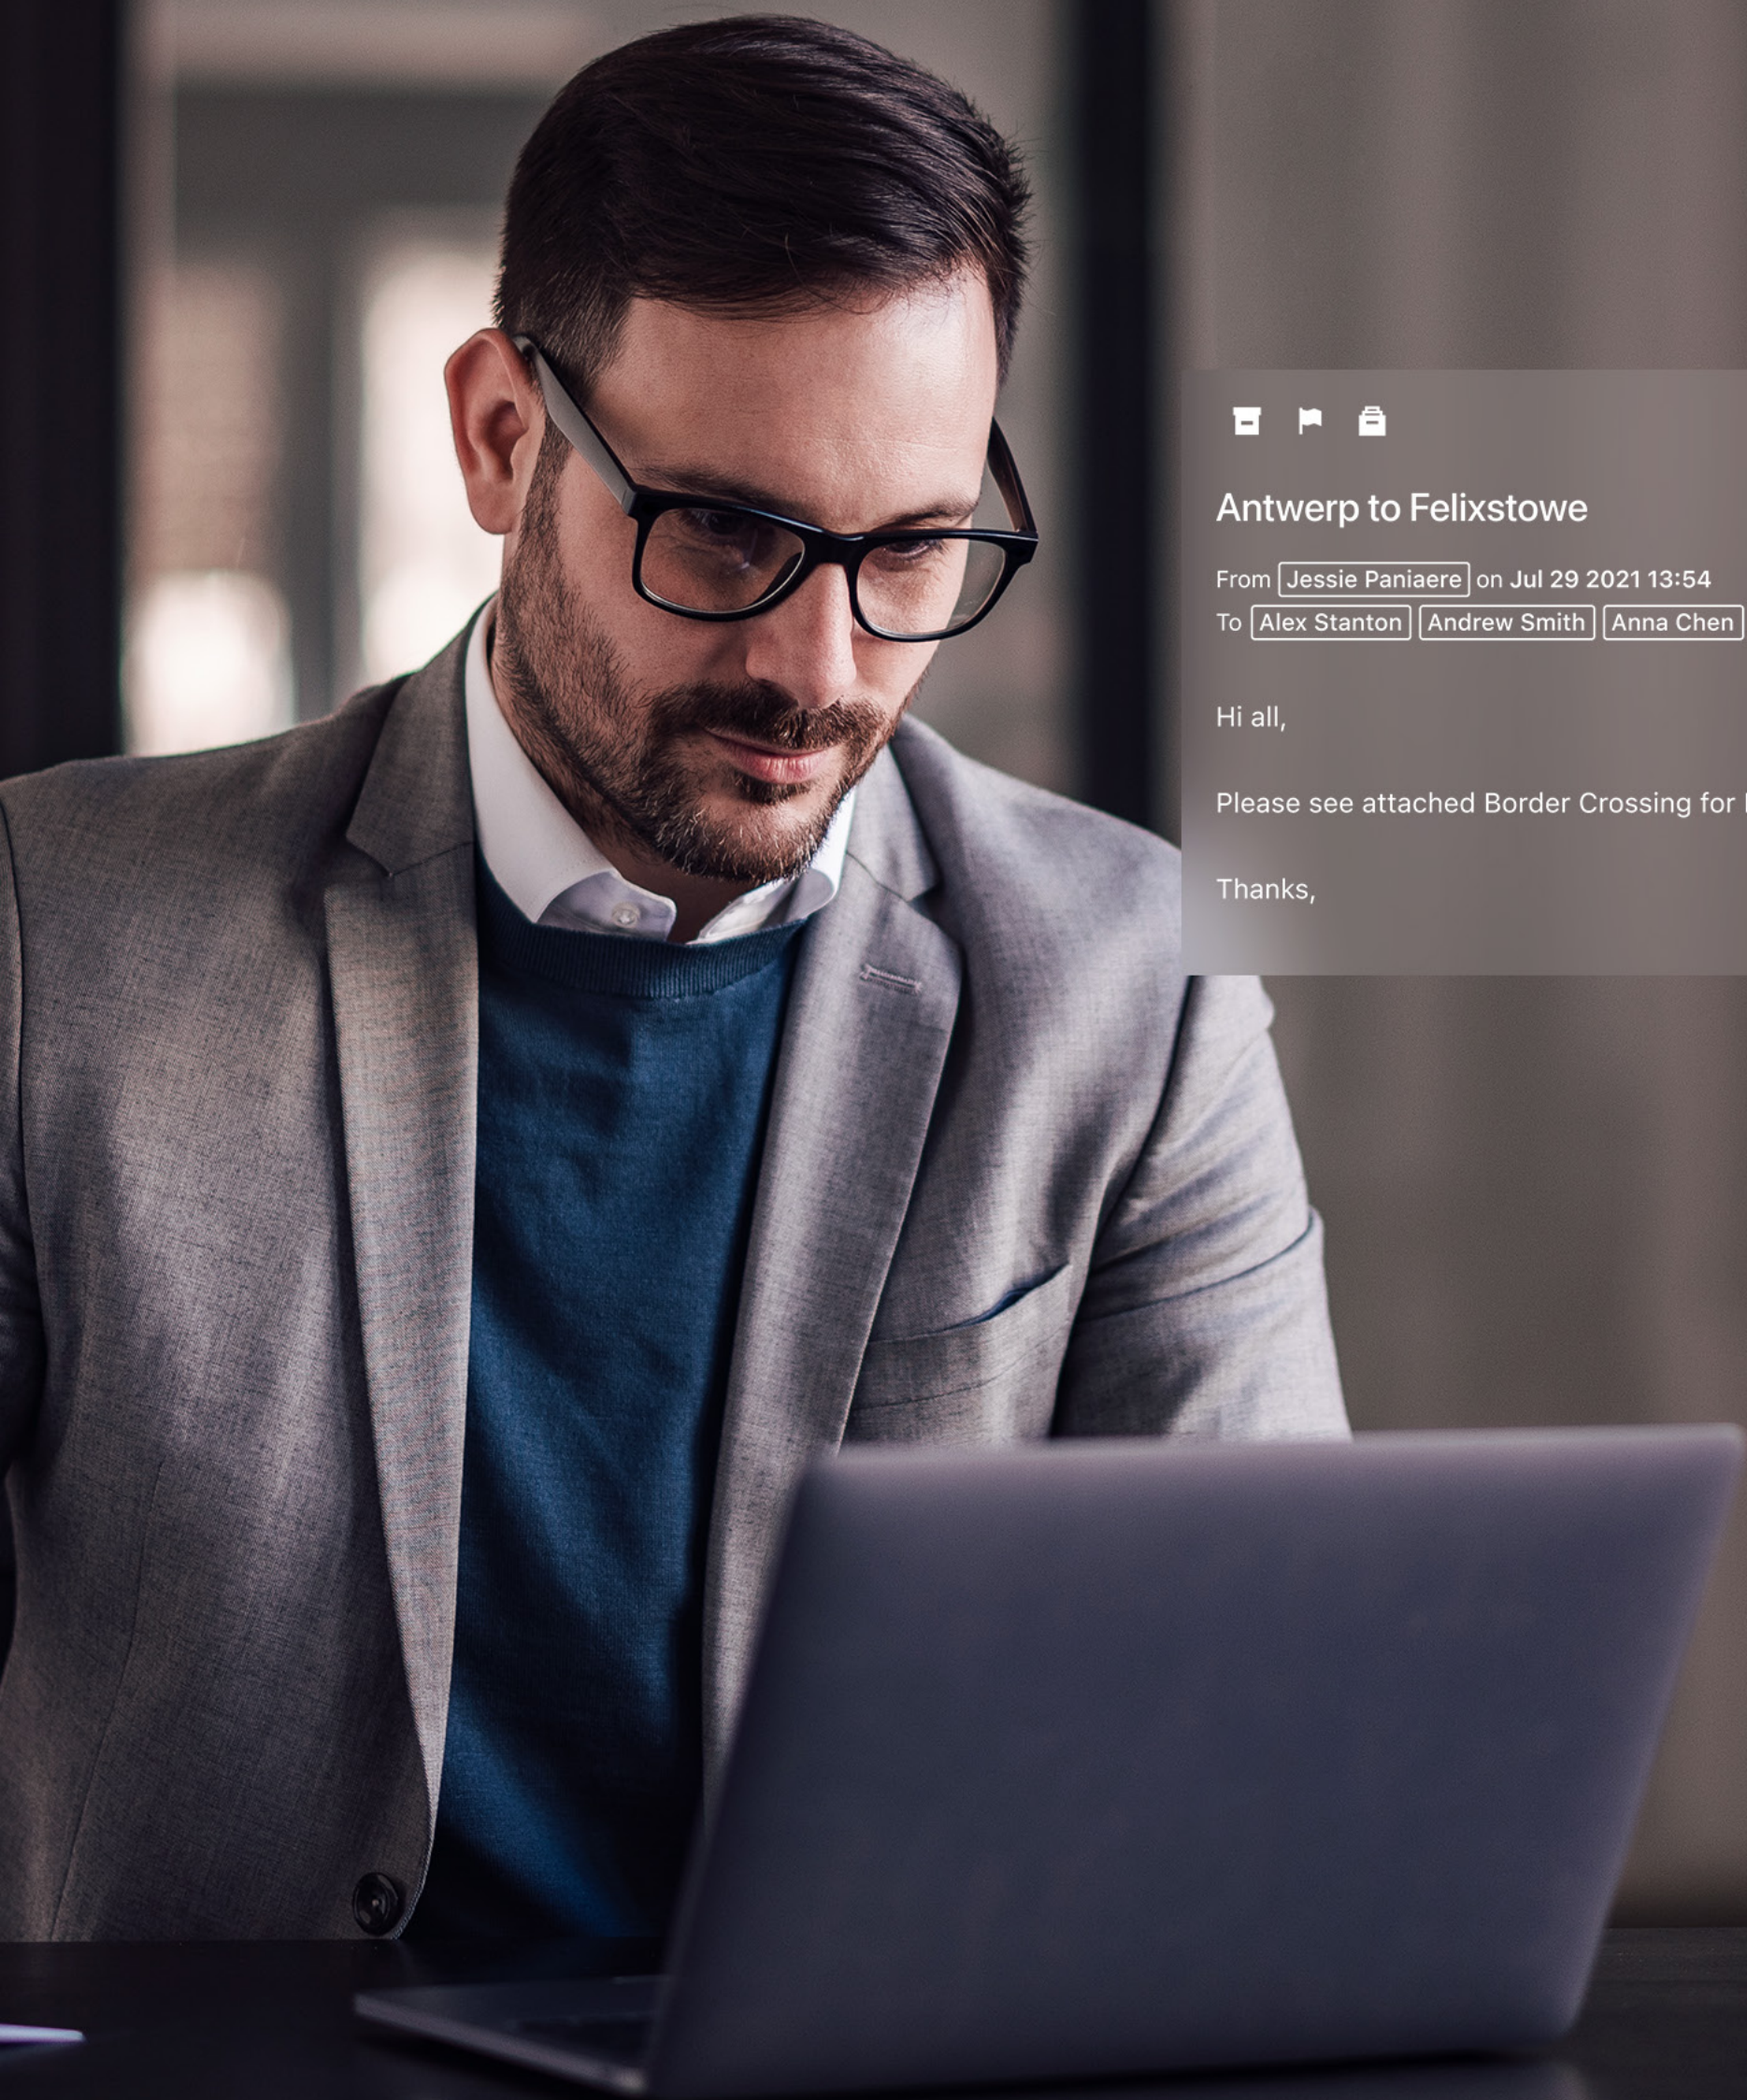

Drive faster responses to key messages and ETA changes

Staying on top of the most recent ETA information for each vessel can be time consuming. At the same time, Operators depend on this key information to optimize each voyage. SEDNA's ETA updates Add-on empowers Operators to respond to changes quickly.

**Tiers available**  
Standard  
Pro  
Enterprise

## Benefits of SEDNA ETA updates

- ⚡ Empower Operators to respond quickly to changing ETAs
- ⚙️ Minimize time spent on manual recordkeeping
- ↓ Reduce errors by automatically seeing to the most recent information

# Customs documents workflow

Automate customs entry processing by extracting data from your inbox

Completing border clearance is dependant on access to the correct documentation, which can be lost in the volume of email your teams receive daily. SEDNA's Border documents workflow speeds up processing customs entries for your teams.

**Tiers available**  
 Standard  
 Pro  
 Enterprise

## Benefits of SEDNA Border documents workflow

- ▶▶ Ensure compliance with customs regulations
- 📄 Easily identify the correct documentation
- ⚡ Save time on manual search and recordkeeping
- ↓ Reduce manual entry with less human error

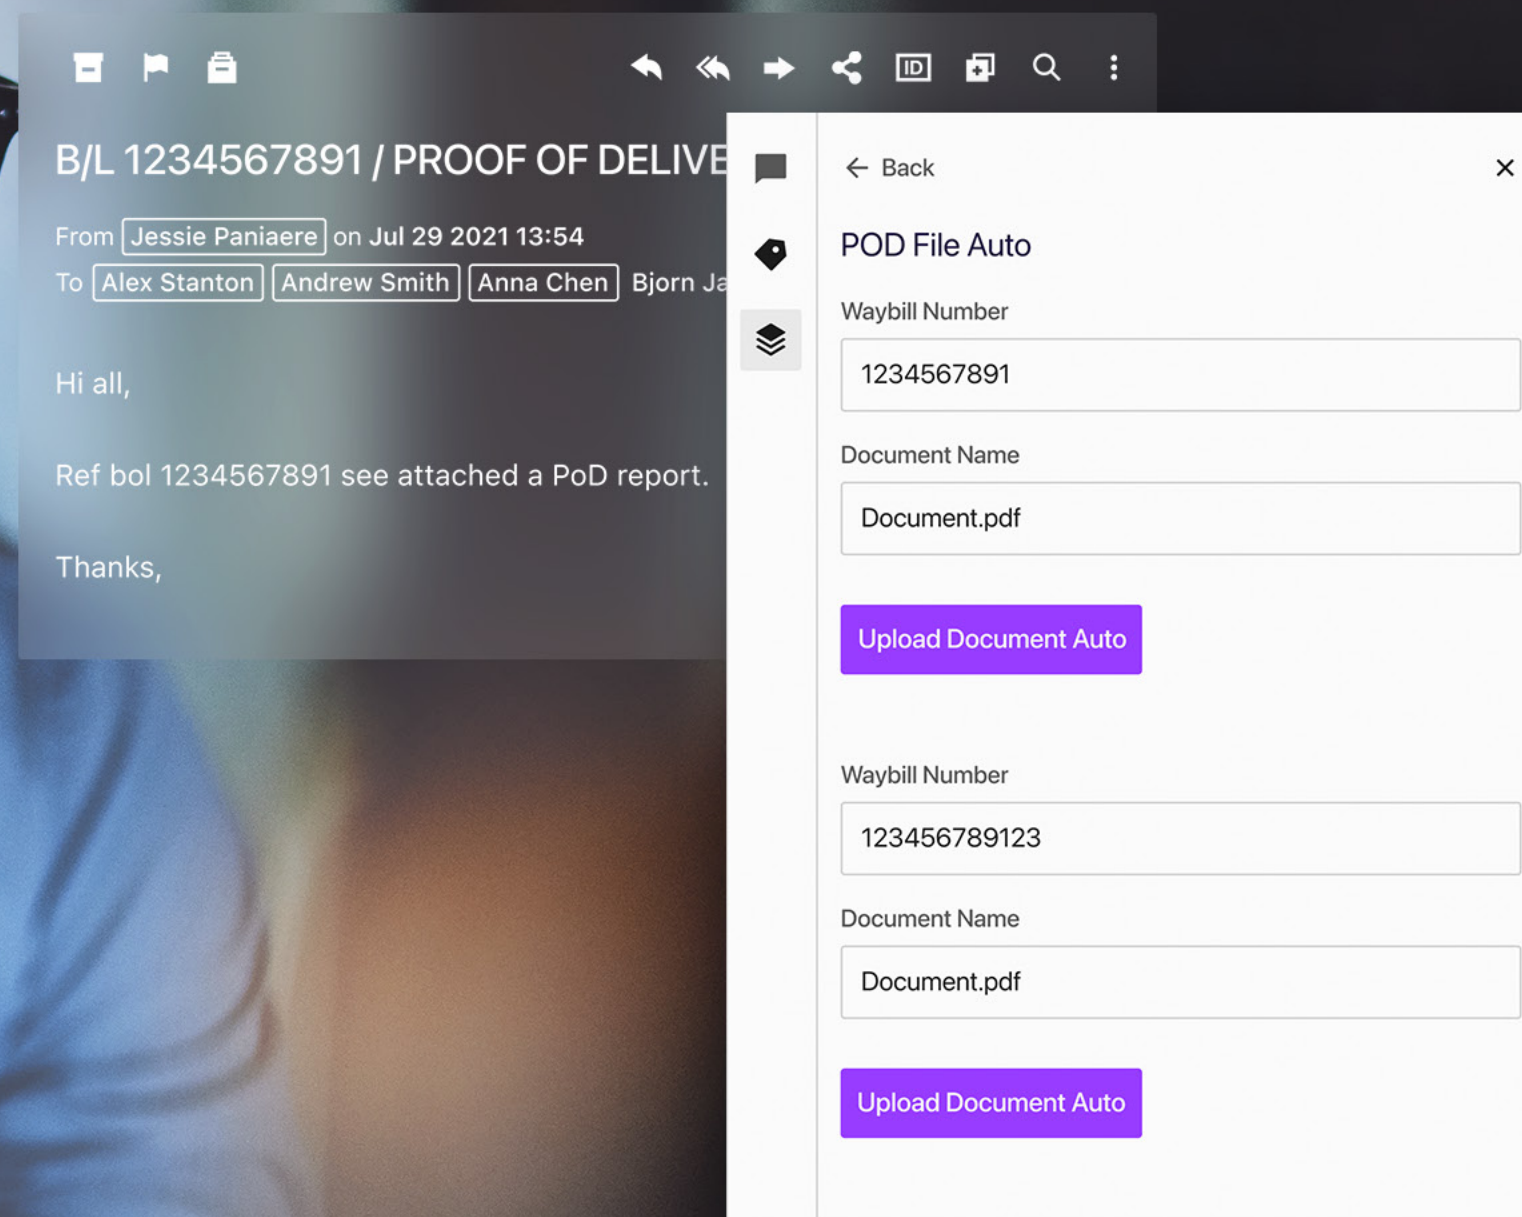

# Proof of delivery management

Keep your TMS up to date automatically with proof of delivery documents

Keeping your system of record updated can be a manual process as your teams are tasked to upload documentation to prove delivery. SEDNA's Proof of delivery management automatically updates your transport management system.

**Tiers available**

- Standard
- Pro
- Enterprise

## Benefits of SEDNA Proof of delivery management

- ▶▶ Bill your customers faster
- ⚡ Save time on manual upload and recordkeeping
- 🔄 Keep your TMS up to date with vital information from your email
